

SANITATION & WASTE MANAGEMENT

Aquasantec provides practical sanitation and waste management solutions that promote cleaner communities, healthier workplaces and safer public spaces. Our products are designed for municipalities, schools, hospitals, NGOs, construction projects and commercial facilities.

From mobile sanitation systems and handwashing units to waste bins, dustbins, latrine slabs and sanitation accessories, every product is engineered for strength, hygiene and ease of maintenance.

Our sanitation portfolio supports improved public health while delivering durable solutions built for demanding environments.
